Audio Recorder

with Sembly Speech-to-Text Cloud Software

High-quality microphones

40 hours battery runtime

8 GB and memory card slot

Automatic speech-to-text

DVT2015

Exceptional recording, automatic speech-to-text

The perfect audio recorder for easily capturing voice recordings including notes, interviews, and small meeting settings. Thanks to its excellent sound quality, long-lasting battery and large extendable memory, it is the ideal alternative to recording with your smartphone. Combined with Sembly's AI Speech-to-Text Cloud Software, you can even turn your recordings into text quickly and accurately. Simply upload your files to Sembly when you are back at your computer and let it automatically convert your recordings to text for you.

Superior audio quality

- Two high-quality stereo microphones for excellent sound quality
- Stereo MP3 and PCM recording for clear playback and easy file sharing
- 8 GB internal memory storage for extra-long recording hours

Designed for ease-of-use

- No installation required for quick plug & play
- Backlight display for easy file navigation in low-light situations
- Micro SD memory card slot for virtually unlimited recording

Turn your speech into text with Sembly

- Automatically convert your recordings to text, up to three times faster than typing
- Automatic meeting minutes with multi-speaker transcription for easy following up
- Easily share your voice or meeting recordings with colleagues, family or classmates

Highlights

High-quality stereo microphones

The two high-quality stereo microphones deliver crystal-clear sound quality when recording notes, ideas and thoughts on the go.

MP3 and PCM recording

Capture your recordings in stereo MP3 or PCM format. The popular file formats allows you to play back your files virtually anywhere and simply share them with others. The PCM (WAV) format allows stereo recording of lossless, uncompressed sound in studio-like audio quality.

8 GB memory built-in

With the 8 GB of built-in memory, your recorder is able to capture multiple days of continuous recording.

Plug and play

The recorder requires no special installation. Simply plug your recorder into your PC or Mac and play back your files or transfer them to your computer right away.

Large backlit display

The large backlit display allows you to see all important file information clearly at a glance. This makes file navigation easier, even in low-light situations.

Micro SD memory card slot

Virtually unlimited recording capacity thanks to a micro SD memory card slot supporting up to 32 GB of additional memory.

Automatic speech-to-text

Put an end to tedious typing and create text documents directly from recorded audio files. Using the Semblly Speech-to-Text Cloud Software is at least three times quicker than typing up the document yourself. Simply record your notes, interviews or meetings, upload them to Semblly, and receive a written document almost instantly.

Automatic meeting minutes

If you want to record meetings, Semblly Speech-to-Text Cloud Software creates automatic meeting minutes, so you can focus on your conversation and not get distracted by having to take notes. Thanks to multi-speaker identification you can clearly identify who said what.

Easy sharing

Semblly allows to save transcriptions on your computer in PDF or markdown format. You can easily share your voice recordings and transcripts with colleagues, family or classmates by simply sending them a link. For increased privacy, you can add a password to your link.
